<b>Hours:</b>	40 hours per week, Monday to Friday, 6.30 a.m. to 2.30 p.m. and Monday to Thursday, 1.30 p.m. to 11.30 p.m., weekly rotation. Sunday night start up once/twice a month – 10.30 p.m. to 6.30 a.m.
<b>Job Type:</b>	Permanent
<b>Deadline:</b>	Open

Established in 1923, VIP-Polymers Ltd have been at the forefront of polymer engineering and are now recognised as one of the leading global providers of sealing solutions for a number of applications:

- Pipelines, for the transportation of drinking and dirty water
- Tunnels, ensuring they remain watertight
- Rail, having developed a number of sealing, noise suppression and anti-vibration components

### Description

An exciting opportunity has arisen at our Huntingdon site for a Multi-Skilled Shift Maintenance Engineer to be part of our Maintenance Team. If you are looking to progress your career, we have the position for you,

The Shift Maintenance Team is a crucial part of the business, ensuring the factory equipment continues to run efficiently and keeping production downtime to a minimum. The Shift Maintenance Engineer will undertake fault finding and repair of injection moulding, compression moulding and extrusion presses as well as assisting with the Planned Preventative Maintenance.

### Profile

The successful candidate will be electrically or mechanically qualified with experience of hydraulics, pneumatics, welding and/or fabrication. If you have these qualities, we would like to hear from you.

Salary will be commensurate subject to the level of qualifications and experience of the successful candidate

## Company Benefits
